PERIMETER COMMUNITY IMPROVEMENT DISTRICTS SUPPORT
EXECUTIVE ORDER

Dear Editors:

The business partners represented by the Perimeter Community Improvement Districts (PCIDs) strongly support Governor Perdue's Executive Order that restricts and directs the use of revenues derived from the GA 400 toll road.

This corridor feeds I-285 and is a critical component of any comprehensive transportation system developed to improve the mobility of traffic in the district. The Governor's public policy position makes it clear that attention will be given to those toll road and related toll road projects that will produce results.

The PCIDs, self-taxing districts in the Perimeter area of Fulton and DeKalb, offer their full support and resources to the partnership. The mission of the PCIDs is to assist in funding, advocating and managing transportation improvement projects that provide accessible, comprehensive transportation choices to its customers, employees and residents.

Thank you Governor.

Yvonne D. Williams
